DD/SMT-0077-5A

26 FEB 1964

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT: Reprogramming of DD/SMT Funds

1. In developing the DD/SMT budgets for Fiscal Years 1964 and 1965, no provisions were made for funding the requirements of the Systems Analysis Staff (O/DD/SMT) since this unit did not actually become operative until September-October 1963. The DD/SMT proposes to absorb the costs of funding this activity for FY 1964 by internally reprogramming [redacted] of OSA funds and increasing the O/DD/SMT allotment in the like amount.

2. We hope to be able to cover the FY 1965 requirements of SAS (O/DD/SMT) from additional funds which may subsequently be made available to the DD/SMT for FY 1965 unprogrammed, priority activities.
